First Consultation

“What are the most important things for the District to consider in reviewing the Marystown Central High school system?”

Demographics

– Recognizing you may belong to more than one of the following groups, please choose the one that most appropriately describes your role in this exchange.

– To what school community do you most closely associate? If you have multiple students in the system, please choose the school of your youngest student.

Top Thoughts

Class size I am concerned about class sizes being too large.

Class size Ensure number of students per class remains adequate for teachers to ensure proper learning environment for students

As a parent I just wanna make sure that our children's education is being put first

Teacher workload Teachers are dealing with behaviour issues, academic difficulties and disabilities like never before. Supports and resources must be provided to them.

Ensuring a healthy class size that stays within the district guidelines and does not rely on combined grades as a cost saving method. Smaller class sizes (across the grades from K-12) allow teachers to better meet the needs of their students.
